

NASSYE 2017

In 2016, NUT have started the short-term study program Nagaoka Summer School for Young Engineers (NASSYE). This is a summer school program opens for the overseas undergraduate and master degree students who are in their penultimate year. The purpose of this program is to introduce NUT to students in all over the world, by offering the opportunity to participate in research at the laboratories and experience life in Japan.

This year from August 20 to August 31 (12 days), there were total of 20 international students from 8 countries participated the program. Participants attended workshops and visited Nagaoka city with NUT students, and they also experienced Japanese cultural learning activities such as tea ceremony and Yu-kyu Taiko. Interactions among NUT students and participants have deepened at the end of the program.
