Chapter 1 Emergency Response		1		
Section 1	Introduction	1	<input type="checkbox"/>	Division of Administrative Affairs
Section 2	Specific Measures	1	<input type="checkbox"/>	
	1 Safety basics	1	<input type="checkbox"/>	
	2 If an electrical accident occurs	1	<input type="checkbox"/>	Division of Facilities Affairs
	3 If you notice a gas leak	2	<input type="checkbox"/>	
	4 In case of a fire	2	<input type="checkbox"/>	
	5 In case of an earthquake	2	<input type="checkbox"/>	
Appendix	1 Procedures for after-hours experiments, etc.	3	<input type="checkbox"/>	Division of Facilities Affairs Division of Academic Affairs
Appendix	2 Contact system for accidents involving students, etc.	5	<input type="checkbox"/>	Division of Facilities Affairs Division of Student Affairs Division of Academic Affairs
Appendix	3 Self-Defense Fire Brigade Organization Chart	6	<input type="checkbox"/>	Division of Facilities Affairs
Appendix	4 Safety and health management system chart	8	<input type="checkbox"/>	Division of Administrative Affairs
Chapter 2 First Aid Measures		9		
	1 Impaired consciousness (A, B, C, D → CAB+D in emergency resuscitations)	10	<input type="checkbox"/>	Miho Ooka, Physical Education and Health Care Center
	AED Locations at Nagaoka University of Technology	12	<input type="checkbox"/>	Division of Administrative Affairs
	2 Call for help	13	<input type="checkbox"/>	
	3 Check the injuries	13	<input type="checkbox"/>	
	4 If the victim is bleeding	13	<input type="checkbox"/>	Miho Ooka, Physical Education and Health Care Center
	5 Fractures, dislocations, lacerations, and bruising	15	<input type="checkbox"/>	
	6 Burns, frostbite, etc.	16	<input type="checkbox"/>	
	7 Convulsions, poisoning	17	<input type="checkbox"/>	
	8 Reference URLs	18	<input type="checkbox"/>	
Chapter 3 General Safety Tips		21		
Section 1	Introduction	21	<input type="checkbox"/>	
	1 Beginner's Guide	21	<input type="checkbox"/>	
	2 Clothing and footwear	21	<input type="checkbox"/>	
	3 Posture	21	<input type="checkbox"/>	
	4 Organization, neatness, cleaning, and sanitation	22	<input type="checkbox"/>	
Section 2	Examples of minor accidents and lessons learned	22	<input type="checkbox"/>	
	1 Examples of accidents resulting in death or injury	22	<input type="checkbox"/>	Division of Facilities Affairs
	2 Examples of nearly fire incident	23	<input type="checkbox"/>	
	3 Water accidents	23	<input type="checkbox"/>	
	4 Faulty electrical wiring	24	<input type="checkbox"/>	
	5 Chemicals accidents	24	<input type="checkbox"/>	
	6 Heavy objects	24	<input type="checkbox"/>	
Section 3	Measures to prevent major accidents	25	<input type="checkbox"/>	
Chapter 4 Handling of Electricity, Gas, Lasers, Machine Tools, etc.		27		
Section 1	Electrical Safety Tips	27	<input type="checkbox"/>	
	1 What are the types of electrical accidents?	27	<input type="checkbox"/>	
	2 Fires caused by electricity	27	<input type="checkbox"/>	
	3 Electric shock accidents	30	<input type="checkbox"/>	Division of Facilities Affairs
	4 How to prevent electric shock	31	<input type="checkbox"/>	
	5 Grounding work	32	<input type="checkbox"/>	
	6 Other hazards caused by electricity	33	<input type="checkbox"/>	
	7 Tips related to power failures	34	<input type="checkbox"/>	
	8 Special training for handling low-voltage electricity	35	<input type="checkbox"/>	
	9 Others	36	<input type="checkbox"/>	
Section 2	Handling of laser equipment	37	<input type="checkbox"/>	Ariyuki Kato, Department of General Education
	1 Precautions for eyes against light and microwaves	37	<input type="checkbox"/>	
	2 Measures, etc. to prevent injury by lasers	37	<input type="checkbox"/>	
Section 3	City gas, tap water	44	<input type="checkbox"/>	
	1 City gas	44	<input type="checkbox"/>	Division of Facilities Affairs
	2 Tap water	44	<input type="checkbox"/>	

Safety Manual (2024 Edition) Table of Contents		page	check	Drafting supervisor
		↓ Place a check <input checked="" type="checkbox"/> next to revised sections		
Section 4	High-pressure gas, liquefied gas	46	<input type="checkbox"/>	Makoto Nanko, Department of Mechanical Engineering
	1 High-pressure gas container (cylinder)	46	<input type="checkbox"/>	
	2 Precautions for handling high-pressure gas cylinder	47	<input type="checkbox"/>	
	3 Precautions for operation using high-pressure gas	49	<input type="checkbox"/>	
	4 High-pressure devices	52	<input type="checkbox"/>	
	5 Liquefied gas	53	<input type="checkbox"/>	Satoshi Tanaka, Department of Science of Technology Innovation
	6 Precautions for handling liquid nitrogen	54	<input type="checkbox"/>	
	7 Precautions for handling liquid helium	55	<input type="checkbox"/>	Hisayuki Suematsu, Department of Nuclear Technology
Section 5	Electric Furnaces	55	<input type="checkbox"/>	Satoshi Tanaka, Department of Science of Technology Innovation
	1 Precautions when using electric furnaces	55	<input type="checkbox"/>	
Section 6	Safety precautions of machine tools	56	<input type="checkbox"/>	Hideo Aida, Department of Mechanical Engineering
	1 General safety precautions of machine tools	56	<input type="checkbox"/>	
	2 Precautions regarding the handling of various machine tools	58	<input type="checkbox"/>	
	3 Precautions when malfunctions or injuries occur in various machine tools and work equipment	63	<input type="checkbox"/>	
Section 7	Transportation and work at heights	65	<input type="checkbox"/>	Division of Facilities Affairs
	1 Work that requires specified licenses, qualifications, etc.	65	<input type="checkbox"/>	
	2 Work other than the above	65	<input type="checkbox"/>	
	3 Work with cranes, derricks, and chain blocks etc.	65	<input type="checkbox"/>	
	4 Work with transport vehicle	66	<input type="checkbox"/>	
	5 Work at heights	66	<input type="checkbox"/>	
Chapter 5 Handling of chemicals, etc.		69		
Section 1	Chemicals and handling precautions	69	<input type="checkbox"/>	Satoshi Tanaka, Department of Science of Technology Innovation
	1 Hazardous, harmful, and general chemicals	69	<input type="checkbox"/>	
	2 Risk assessment	72	<input type="checkbox"/>	
	3 General precautions for handling chemicals	73	<input type="checkbox"/>	
	4 Limits on possession and handling of hazardous materials	78	<input type="checkbox"/>	
	5 Hazardous materials storage	82	<input type="checkbox"/>	
	6 When starting a new experiment	83	<input type="checkbox"/>	
	7 General precautions for chemical experiments	84	<input type="checkbox"/>	
	8 First aid for chemical injuries	88	<input type="checkbox"/>	
	9 Treatment for various chemicals	89	<input type="checkbox"/>	
Section 2	Hazardous chemicals	92	<input type="checkbox"/>	
	1 Pyrophoric substances	92	<input type="checkbox"/>	
	2 Explosive substances	97	<input type="checkbox"/>	
	3 Flammable substances	101	<input type="checkbox"/>	
	4 Acids	106	<input type="checkbox"/>	
	5 Mixed hazardous materials	107	<input type="checkbox"/>	
Section 3	Acids and alkalis	111	<input type="checkbox"/>	
	1 Acids	111	<input type="checkbox"/>	
	2 Alkalis	115	<input type="checkbox"/>	
Section 4	Toxic and harmful chemicals	118	<input type="checkbox"/>	
	1 Toxicity, toxicity measures, and anti-pollution measures	120	<input type="checkbox"/>	
	1.1 Toxic gas and vapor	121	<input type="checkbox"/>	
	1.2 Mercury and mercury compounds	123	<input type="checkbox"/>	
	1.3 Cyanide compounds	126	<input type="checkbox"/>	
	1.4 Other inorganic toxic and harmful substances	127	<input type="checkbox"/>	
	1.5 Organic toxic and harmful substances	129	<input type="checkbox"/>	
	2 Storage and management of poisonous and deleterious substances	132	<input type="checkbox"/>	
Chapter 6 Disposal of Liquid Waste and Experimental Waste etc.		137		
	1 Domestic wastewater	137	<input type="checkbox"/>	Division of Facilities Affairs
	2 Experimental wastewater	137	<input type="checkbox"/>	
	3 Experimental liquid waste	137	<input type="checkbox"/>	
	4 Rainwater	138	<input type="checkbox"/>	
	5 Experimental waste	138	<input type="checkbox"/>	Tatsuro Imakubo, Department of Materials Science and Bioengineering

Safety Manual (2024 Edition) Table of Contents		page	check	Drafting supervisor

Chapter 7 Safety of Biological Material		141		
Section 1	Introduction	141	<input type="checkbox"/>	Eiji Masai, Department of Materials Science and Bioengineering
Section 2	Microbial Experiments	141	<input type="checkbox"/>	
	1 Laws and regulations related to pathogenic microorganisms	141	<input type="checkbox"/>	
	2 Handling of microorganisms	143	<input type="checkbox"/>	
Section 3	Animal Experiments	143	<input type="checkbox"/>	Yasushi Shimoda, Department of Materials Science and Bioengineering
	1 Rules and Regulations Regarding Animal Experiments	143	<input type="checkbox"/>	
	2 Handling of Experimental Animal	144	<input type="checkbox"/>	
Section 4	Recombinant DNA Experiments	145	<input type="checkbox"/>	Taisuke Nishimura, Department of Materials Science and Bioengineering
	1 Regulation on Recombinant DNA Experiments	145	<input type="checkbox"/>	
	2 Mechanism of the Regulation (Cartagena Act)	146	<input type="checkbox"/>	
	3 Determination of Containment Measures	148	<input type="checkbox"/>	
	4 Realities of Physical Containment	150	<input type="checkbox"/>	
Chapter 8 Radioactive Isotopes and Radiation Generator		151		
Section 1	Introduction	151	<input type="checkbox"/>	Yoshinobu Matsumoto, Department of Nuclear Technology
	1 What is Radiation?	151	<input type="checkbox"/>	
	2 Where can it be used?	151	<input type="checkbox"/>	
	3 Who can use it?	152	<input type="checkbox"/>	
	4 What can use?	152	<input type="checkbox"/>	
Section 2	Effects of radiation on the human body	153	<input type="checkbox"/>	
	1 Categorization by timing of onset of radiation injury	154	<input type="checkbox"/>	
	2 Categorization by mode of exposure	155	<input type="checkbox"/>	
	3 Categorization by threshold	156	<input type="checkbox"/>	
	4 Categorization by type of radiation	158	<input type="checkbox"/>	
Section 3	Radiation, RI, and radiation-emitting devices	159	<input type="checkbox"/>	
	1 Radiation	159	<input type="checkbox"/>	
	2 RI (Radio Isotope: Radioactive Isotopes)	161	<input type="checkbox"/>	
	3 Radiation Generator	162	<input type="checkbox"/>	
	4 Units of radiation	162	<input type="checkbox"/>	
Section 4	Safety handling and usage procedures for RI and Radiation Generator	163	<input type="checkbox"/>	
	1 Safety handling	163	<input type="checkbox"/>	
	2 Usage procedures	163	<input type="checkbox"/>	
	3 Obtaining RI	164	<input type="checkbox"/>	
	4 Education and training	164	<input type="checkbox"/>	
	5 Entry and precautions in Radiation Facilities	164	<input type="checkbox"/>	
	6 Detection of radiation	165	<input type="checkbox"/>	
	7 Radiation protection	166	<input type="checkbox"/>	
	8 Handling of uranium, thorium, etc.	168	<input type="checkbox"/>	
	9 Equipment for Nuclear Safety Education at Nagaoka University of Technology and Examples of Experiments	169	<input type="checkbox"/>	
Chapter 9 X-rays and X-ray-Generators		173		
Section 1	X-rays	173	<input type="checkbox"/>	Tatsuya Suzuki, Department of Nuclear Technology
	1 X-ray management	173	<input type="checkbox"/>	
	2 X-ray measurements	174	<input type="checkbox"/>	
	3 Effects of X-rays on the human body	174	<input type="checkbox"/>	
Section 2	X-ray-Generators	174	<input type="checkbox"/>	
	1 Precautions when using X-ray-generators	175	<input type="checkbox"/>	
	2 Other precautions	176	<input type="checkbox"/>	
Chapter 10 Safety in Field Experiments/ Practice		177		
Section 1	General Preparedness	177	<input type="checkbox"/>	Naoyuki Inukai, Department of Civil and Environmental Engineering
Section 2	Preparation before going out	177	<input type="checkbox"/>	
	1 Planning and information gathering	177	<input type="checkbox"/>	
	2 Securing emergency communication channels and first aid training	178	<input type="checkbox"/>	
	3 Preparing clothing and equipment	178	<input type="checkbox"/>	
	4 Advance notification	179	<input type="checkbox"/>	
	5 Confirmation of accident insurance	179	<input type="checkbox"/>	
Section 3	Local preparedness	180	<input type="checkbox"/>	Naoyuki Inukai, Department of Civil and Environmental Engineering
	1 Local precautions	180	<input type="checkbox"/>	
	2 What to do in case of unforeseen circumstances	183	<input type="checkbox"/>	
Section 4	Post-completion preparedness	186	<input type="checkbox"/>	

Safety Manual (2024 Edition) Table of Contents		page	check	Drafting supervisor
		↓ Place a check <input checked="" type="checkbox"/> next to revised sections		
Chapter 11 Disaster Prevention (Earthquake/Fire)		187		
Section 1	Earthquake safety measures	187	<input type="checkbox"/>	Division of Facilities Affairs
	1 Precautions against earthquakes	187	<input type="checkbox"/>	
	2 If an earthquake occurs	191	<input type="checkbox"/>	
	3 Post-earthquake procedures	192	<input type="checkbox"/>	
Section 2	Earthquake and fire safety measures	193	<input type="checkbox"/>	
	1 Fire caused by an earthquake	193	<input type="checkbox"/>	
	2 Earthquake fire safety measures under normal circumstances	193	<input type="checkbox"/>	
	3 Fire suppression in the event of an earthquake	194	<input type="checkbox"/>	
Section 3	Fire prevention and suppression	195	<input type="checkbox"/>	
	1 Fire prevention	195	<input type="checkbox"/>	
	2 What to do in the event of a fire	195	<input type="checkbox"/>	
	3 Evacuation	195	<input type="checkbox"/>	
Section 4	Disaster prevention equipment and alarms	196	<input type="checkbox"/>	
	1 Fire alarm system	196	<input type="checkbox"/>	
	2 Fire extinguishers	198	<input type="checkbox"/>	
	3 Indoor fire hydrant system	198	<input type="checkbox"/>	
	4 Outdoor fire hydrant system	198	<input type="checkbox"/>	
	5 Halide fire extinguishing system	199	<input type="checkbox"/>	
	6 Broadcasting equipment	199	<input type="checkbox"/>	
	7 Fire door equipment	199	<input type="checkbox"/>	
	8 Elevator control operation	199	<input type="checkbox"/>	
Chapter 12 Work Environment		201		
Section 1	Work environment, accidents, and disasters	201	<input type="checkbox"/>	Division of Administrative Affairs
Section 2	Temperature/humidity	202	<input type="checkbox"/>	
Section 3	Air and ventilation	203	<input type="checkbox"/>	
Section 4	Lighting	204	<input type="checkbox"/>	
Section 5	Noise and vibration	206	<input type="checkbox"/>	Miho Ooka, Physical Education and Health Care Center
Section 6	Disorder caused by IT equipment operations	209	<input type="checkbox"/>	
	1 Disorder caused by IT equipment operations	209	<input type="checkbox"/>	
	2 Control practice (prevention)	209	<input type="checkbox"/>	
	3 Reference URLs	210	<input type="checkbox"/>	
Chapter 13 Ensuring physical education and sports safety		211		
Section 1	Introduction	211	<input type="checkbox"/>	Akira Shionoya, Physical Education and Health Care Center
Section 2	Pool	211	<input type="checkbox"/>	
Section 3	Indoor physical education facility and training room	213	<input type="checkbox"/>	
Section 4	Outdoor physical education facilities	216	<input type="checkbox"/>	
Chapter 14 w-SDS		219		
Section 1	Positioning of w-SDS at the University	219	<input type="checkbox"/>	Work Safety Data Sheet Working Group
Section 2	Overview of w-SDS and preparation/submission	219	<input type="checkbox"/>	
Section 3	Useful information for w-SDS preparation	220	<input type="checkbox"/>	
	Prevention of experiment-related accidents, etc.	221	<input type="checkbox"/>	Division of Administrative Affairs
	Seeking cases of "near misses"	276	<input type="checkbox"/>	Division of Administrative Affairs
	General Waste Separation Chart	277	<input type="checkbox"/>	Division of Administrative Affairs
	Classification of Experiment-Related Waste	278	<input type="checkbox"/>	Tatsuro Imakubo, Department of Materials Science and Bioengineering
	Flowchart of Experiment-Related Waste Classification	279	<input type="checkbox"/>	
	List of contact information in case of emergency	END	<input type="checkbox"/>	Division of Administrative Affairs
