

Reorganization of Master's Program in the Graduate School of Engineering (Advance Notice)

In April 2022, the University plans to reorganize the Master's Program in the Graduate School of Engineering.

The recruitment of new students in fiscal 2022 will be carried out in each of the currently established majors in accordance with the 2022 Guidelines for Recruitment of Students. If the reorganization is decided in April 2022, the new students will be recruited to the reorganized "Engineering Major", and will be assigned to each of the fields in the major. We will inform you of the areas to be assigned after the reorganization as soon as it is decided, by the time of admission.

This reorganization plan is scheduled but is subject to change. Please confirm the details after the reorganization, which will be announced on the homepage of the university.

※ The names of majors and fields after reorganization are tentative.

The Reorganization Plan is a working concept and may be subject to change.

The System Safety Engineering major has not been changed due to this reorganization.
