※Capacity: 16 players / day, More information: please check web site 

「No One Left Behind!!」

~Task of International GIGAKU Unity Staff~

In 2029. The international community has been working together to resolve social issues, but it seems we are far from achieving the SDGs. There was a report that many countries might still be left behind. Can we transform our world with less than a year left? Nagaoka University of Technology established "International GIGAKU Unity (IGU)" and started recruiting staff of IGU. We look forward to welcoming new members and save countries that has been left behind.
